Response to Restriction Requirement
Page 2

REMARKS

Currently, there are 20 pending claims in the application, Claims 1-20.

RESTRICTION REQUIREMENT

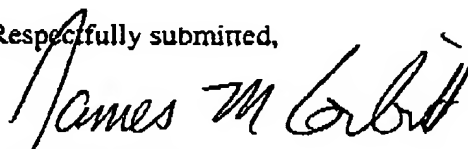

In the Restriction Requirement, mailed May 23, 2006, the Examiner required restriction of the claims to one of three groups. Applicants traverse this restriction for the reason that the groups delineated by the Examiner are related to a composition for treatment of dermal structure and methods of using such compositions. Applicants submit that searching the prior art for these inventions should not place an undue burden on the Examiner. Nevertheless, in order to facilitate prosecution, Applicants elect, with traverse, prosecution of the claims of Group II, Claims 11-17. Applicants reserve the option of prosecuting the related claims at another time, and when allowable claims are found, request recombination of the currently restricted claims.

The foregoing is a complete response to the Action dated May 23, 2006. Applicants respectfully submit that at least Claims 11-17 are patentable. Early and favorable consideration is solicited.

The Commissioner is hereby authorized to charge any fees that may be required, or credit any overpayment, to Deposit Account No. 20-1507.

If the Examiner believes there are other issues that can be resolved by a telephone interview, or that there are any informalities that remain in the application which may be corrected by the Examiner's amendment, a telephone call to the undersigned agent at (404) 885-2552 is respectfully solicited.

Respectfully submitted,
